Hi Matt,

Attached is the final checklist showing the review of the NMP submitted for Four Brothers Dairy. EPA used contractor assistance to complete the review of the NMP and several areas of the NMP need to be updated before we can move toward public notice of the NOI and NMP. Those needed updates are highlighted in yellow in the checklist.

If you'd like to schedule some time to have a call with myself and our contractor, I'm happy to do that. Please let me know and I'll set it all up.
